

INTERACTIVE SHOW WITH LEONARDO DA VINCI AT THE RENAISSANCE FESTIVAL

Step Back in Time with Leonardo da Vinci!

Join the legendary artist, inventor, and Renaissance genius, Leonardo da Vinci, at the Renaissance Festival in Ontario!

This exciting, curriculum-based interactive show brings history, science, and art to life for students in Grades 3 to 6. Perfectly aligned with The Ontario Curriculum, this unique experience will ignite curiosity, foster creativity, and deepen students' understanding of the Renaissance period while meeting key educational requirements.

What to Expect:

- **Engaging Performances:** Leonardo himself demonstrates the marvels of the Renaissance era through live sketches, fascinating inventions, and thought-provoking storytelling.
- **Interactive Learning:** Students participate in hands-on activities inspired by Leonardo's techniques and ideas, such as mirror writing, blueprint designs, and creative experiments.
- **Tailored to Ontario Curriculum:** Each grade explores specific learning goals that align with expectations in Visual Arts, History, and Science.

Curriculum Connections:

From exploring principles of art to understanding the historical significance of the Renaissance, every activity connects directly to grade-specific learnoutcomes, ensuring students' participation enhances their academic journey.

Details:

- 45-minute sessions, followed by a Q&A with "Leonardo"
